PREFACE

The *Idaho Fiscal Sourcebook, 2003 Edition* details the sources and uses of funds for state agencies. It includes those funds specifically appropriated by the Legislature and those funds continuously appropriated (limited only by revenues) as provided by statute. It is compiled by legislative staff and acts as a companion to the *Legislative Fiscal Report*, the comprehensive record of budget decisions made by the Joint (Senate) Finance (House) Appropriations Committee (JFAC).

This publication organizes each state department that has spending authority for the listed funds into six broad functional areas: 1) Education, 2) Health and Human Services, 3) Public Safety, 4) Natural Resources, 5) Economic Development, and 6) General Government. Some departments are then divided into divisions or agencies for budgeting purposes. Each program is listed in the same order as the *Legislative Fiscal Report*. The relevant funds are next, sorted numerically within three fund categories (general, dedicated, and federal), using the accounting code number. The Statewide Accounting and Reporting System (STARS) agency code and STARS budget unit follow on the same line as a cross-reference to the accounting system. The term "(Cont)" found after certain budget units signifies a continuous appropriation.

A description of the fund sources and fund uses then follows. If the same sources and uses for a fund are listed for more than one program in the agency or division then an asterisk will appear after the fund number, denoting that the source and use information for that fund is found under "Funds Common to More than One Program" at the beginning of the section. The next line lists five fiscal years of actual expenditures from that fund. The state's fiscal year (FY) begins July 1 and ends June 30. These unaudited numbers, provided by the Legislative Auditors from STARS, are the sum of the cash expenditures and the encumbrances.

Serving Idaho's Citizen Legislature

Locating fund sources and uses depends on what you want to know. If you want to know what funds are used by a certain agency, go to the **Table of Contents** on pages iii through iv to find the functional area and page number. If you want to know which agencies use a particular fund, turn to the **Index by Fund Name** on pages 253 through 261 to find those agencies and their page numbers. If you only know the fund number, turn to the **Crosswalk by Fund Number** on pages 249 through 252 to find the name of the fund, and then turn to **Index by Fund Name** to find the page numbers.

The agency's fiscal officer or legislative budget and policy analyst provided the descriptions of fund sources and uses. Provisions of the *Idaho Code* are cited throughout to provide a legal reference to the sources and uses of state funds. The title, chapter and section numbers are placed in parentheses following the statement that refers to or summarizes the relevant *Idaho Code* provision. For example, "(§67-3516)" inserted in the description of a source of funds indicates that further information about that fund source may be found in Title 67, Chapter 35, Section 16 of the *Idaho Code*.

This document also contains **Appendix: Laws Governing the State Budget** on pages 233 through 247. It contains the sections of Idaho Constitution and Idaho Code that pertain to the responsibilities of the Legislature and the Governor in the establishment and execution of the state budget.

This document represents a snapshot in time and should be considered as part of an on-going project. Each edition incorporates changes as programs or funds are added, combined, or deleted or as names are changed or descriptions improved.

to account for all financial resources except those required to be accounted for in another fund.		
<i>Special</i>		0009 - 0349
to account for the proceeds of specific revenue sources (other than expendable trusts or for major capital projects) that are legally restricted to expenditures for specified purposes.		
<i>Capital Projects</i>		0350 - 0374

<i>Internal Service</i>		0426 - 0480
to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis.

The research and extension components are funded directly via appropriation to the Agricultural Research & Extension Service (ARES), over eighty percent of which comes from the General Fund. Agricultural research scientists are located at the campus in Moscow and the Caine Veterinary Teaching Center at Caldwell; at Research and Extension Centers at Sandpoint, Parma, Caldwell, Boise, Twin Falls, Kimberly, Aberdeen, Idaho Falls and Teton; and at the USDA/ARS Soil and Water Laboratory at Kimberly. University research support staff are also located at the USDA/ARS Sheep Experiment Station in Dubois. ARES work includes research on major Idaho agricultural products and on economic activities that apply to the state as a whole. The Cooperative Extension Service has offices in 42 of Idaho's 44 counties (all except Boise and Lewis counties) that are staffed by those who are specially trained to work with agriculture, families, youth and communities. The educational programs of these College of Agriculture faculty members are supported cooperatively by county, state and federal funding. Miscellaneous Revenue (0349-00)

502 EDDA

Sources: Money in this fund comes from various sources including rental income receipts, out-of-state tuition, donations received from individuals, organizations, foundations and various other groups or sources including the Albertson Foundation.

Uses: Money from this fund is used to pay utilities and other maintenance expenses at the Idaho School for the Deaf and the Blind. Utilities include natural gas, electricity, as well as water, sewer, and trash. These limited funds are used to support the general operating budget of the school as utilities are considered as an integral component of the general operating budget.

Moneys from donations, whether they are from a private individual or an established foundation like the Albertson Foundation are expended as per the directions of the donor. If a use is not specified in the donation, the moneys are used to provide educational support and assistance to "students in need" at the school. No donations are used to support the general operating budget of the school.

Charitable Institutions Endowment Income (0481-03)

502 EDDA

Sources: One-thirtieth (1/30) of the receipts to the Charitable Institutions Fund as authorized in Idaho Code §66-1106. This legal transfer which is completed each month by the State Controller's Office, provides the revenue while legislative appropriation authority provides the level of authorized expenditure each year.

Uses: Money from this fund is used to pay utilities and other maintenance expenses at the Idaho School for the Deaf and the Blind. Utilities include natural gas, electricity, as well as water, sewer, and trash. These limited funds are used to support the general operating budget of the school as utilities are considered as an integral component of the general operating budget. Historically, receipts from the endowment fund were primarily used to pay for "utilities" each year. However, in recent years, the Executive Budget and subsequent legislative appropriation have utilized a greater portion of dedicated endowment monies for things such as the purchase of one-time capital items.

Education

Sources: The federal grant fund receives moneys from a variety of federal education assistance programs. Federal education grant programs provide financial resources to supplement and to enhance the educational programs of the Idaho School for the Deaf and Blind. Major federal programs in which the school participates on a continuing basis include the Individuals With Disabilities Education Act (IDEA, P.L. 105-17), particularly Title VI-B, and the Elementary and Secondary Education Act (ESEA, P.L. 103-382), including Titles I, II, IV, and VI. Most program grants come from the U.S. Department of Education and are administered in Idaho by the Idaho Department of Education. This fund also receives funds from other federal sources as well as occasional or one-time federal grants.

Uses: Moneys are expended from this fund to extend and improve comprehensive educational programs for handicapped children enrolled who are served at the Gooding campus as well as other locations within the state. Under this program, the Idaho School for the Deaf and the Blind has purchased educational material as well as computers and other educational equipment. The school also purchases specialized consultant services to address the unique need of the student population. A final area includes the purchase of Braille books for students across the State of Idaho who are enrolled in public school districts.

Federal Grant (0348-00)

522 EDMA

Sources: The fund receives moneys from a federal grant authorized by the National Historic Preservation Act of 1966 (Public Law 89-665; 16 U.S.C. 470). The grant is administered by the National Park Service, U.S. Department of the Interior. The state matching share is 40% for sites inventory and 60% for other preservation activities. Public Instruction (0325-00)

170 EDBD

Sources: Fund revenue is from fees assessed on school districts and other agencies participating in state-level training sessions, educational programs, and the surplus food commodity program.

Additionally, the State Board of Education is authorized to set a fee not to exceed \$35 for teaching certificates issued in the state (§33-1205), and \$15 for each revision to a certificate. The fees are deposited into this fund. A \$40 fingerprint registration fee is also collected.

This fund also receives auction proceeds from surplus property and General Equivalency Diploma (G.E.D.) fees.

Uses: Fund expenditures are for the costs of operating state-level training sessions and educational programs, and for storage, processing and distribution of food commodities.

Teaching certificate fees are used by the Professional Standards Commission for payment of reasonable expenses in performing duties and responsibilities and to partially defray the cost of the Office of Certification. Of the \$40 collected for the fingerprints program, \$6 runs the program in the agency, and \$34 is suspended in 0349 for DOLE.

In addition, auction proceeds are used for equipment-related costs and G.E.D. fee revenue is used to partially defray the cost of administering the G.E.D. program.

The Department of Education has no spending authority for these funds. Funds are suspended as they come in and transferred out based on the dollar amount of the invoice.

The current Albertson Foundation grants include the final expenditures of the technology initiative (\$28,000,000 for computer equipment, software and training, and \$325,000 for administration of the program), as well as the High Performance Schools initiative.

Department of Environmental Quality

Funds Common to More than One Program

General (0225-03)

Sources: The General Fund consists of, "moneys received into the treasury and not specially appropriated to any other fund" (§67-1205). The fund sources are: 1) individual income tax, 2) corporate income tax, 3) sales tax, 4) cigarette tax, 5) beer tax, 6) wine tax, 7) liquor surcharge, 8) kilowatt hour tax, 9) mine license tax, 10) Treasurer's interest on investments of certain idle state funds, 11) court fees and fines, 12) insurance premium tax, 13) sale of alcoholic beverage licenses, 14) unclaimed property, and 15) other miscellaneous sources from various agency receipts.

Uses: The Department of Environmental Quality uses General Fund monies for direct program support and to match federal funds. The State Controller's accounting system controls expenditures at the fund level for the Department of Environmental Quality Fund without regard to revenue source. However, the department reports actual expenditures by fund-detail in accordance with §39-107B(2). This reconciliation between the Department of Environmental Quality Fund and the fund source creates the potential for variances. The actual FY 2002 General Fund expenditures were \$240,000 higher and the federal fund expenditures were \$240,000 lower. These differences were due to encumbrances of \$111,714 in the Air Quality Program and \$128,270 in the Water Quality Program. Also note that the actual expenditures prior to FY 2001 were recorded under the Department of Health and Welfare.

Department of Fish and Game

Funds Common to More than One Program

Fish and Game (0050-00)

Sources: All moneys received from the sale of hunting, fishing and trapping licenses, tags and permits (except as provided by §36-111), or from any other source connected with the administration of the provisions of the Idaho Fish and Game Code or any law or regulation for the protection of wildlife, including the sale of predatory animal furs, are credited to the Fish and Game Fund (§36-107).

All revenue received from the sale of property, either owned by the Commission or that which has been confiscated, is deposited into the Fish and Game Fund.

Moneys received from private individuals, businesses or foundations for specific projects (e.g. Idaho Power Company for anadromous hatchery operations) are deposited into the Fish and Game Fund. These funds are not "donated" funds and are designated as "Fish and Game Fund (Other)" in the budget system.

All moneys received from the federal government for the administration of any aspect of the Fish and Game laws. (§36-110). These funds are designated as "Fish and Game Fund (Federal)" in the budget system.

Uses: The money from this fund is used to enforce and administer the fish and game laws in Idaho and to perpetuate and manage Idaho's wildlife resources (§36-107). An annual report is published on each fiscal year's operations.

Federal moneys in this fund are used to administer various aspects of the Fish and Game laws within the limits set in each grant, contract, or agreement with a federal agency. Federal Aid for Wildlife and Fisheries Restoration is administered by the U.S. Fish and Wildlife Service of the Department of the Interior. These funds require a 25 percent state match. Uses of other federal funds include the monitoring, research, and artificial propagation of anadromous fish, wildlife habitat protection and development, and the research of various wildlife species including those listed as threatened and endangered (§36-110).

Although, the Department reports actual expenditures at the fund-detail level for budgeting purposes, the State Controller controls Fish and Game expenditures at the fund level. Revenues from licenses, federal and other sources are commingled in the actual expenditures reported by STARS.

--------------	--------------	--------------	--------------	--------------	--------------	--------------	--------------	--------------	--------------

Fish and Game Set-Aside (0051-00)

Sources: The moneys received in the Fish and Game Set-aside Fund come from specific license, tag or permit fees and donations. The budget system differentiates "Fish and Game Set-Aside Fund (Licenses)" from "Fish and Game Set-Aside (Other)". Revenues from meat processing fines, the tax check-off and license plate sales are recording in the "Other" category and are reported separately for budgeting purposes. The Statewide Accounting and Reporting System (STARS) does not make the revenue distinction in the expenditure record. Reported expenditures include all set-asides.

- Uses:
1. Land Acquisition and Habitat Improvement:
\$2.00 from each major combination and hunting license sold is used to acquire access or rehabilitate big game, upland bird or waterfowl habitat [§36-111(b), §36-406(f)].
 2. Salmon and Steelhead Tag:
\$4 from each salmon and steelhead permit sold is used to acquire or rehabilitate salmon and steelhead fishing access and habitat [§36-111(a), §36-406(f)]
 3. Winter Feeding & Depredation:
\$1.50 from each deer, elk and antelope tag sold [§36-111(c), §36-406(f)], of which 75 cents shall go to winter feeding and 75 cents to depredation prevention and control.
 4. Non-game Program:
 - a) Every individual who has a refund due and payable for overpayment of state income taxes may designate all or any portion thereof to be deposited in the non-game fund [§36-111(d)] for support of the nongame program (§49-417).
 - b) There are three Idaho wildlife special licenses plates. In addition to the regular registration fees, applicants are charged \$35 for the initial issuance of the plates and \$25 for annual renewal. Ten dollars of the initial fee and ten dollars of the renewal fee are deposited to the state highway account. The remaining donation of \$25 of the \$35 plate fee and \$15 of the \$25 renewal fee is earmarked as follows: bluebird plate, \$25 and \$15 to non-game programs; elk plate, \$1.25 and .75 to the wildlife disease laboratory and remainder to non-game programs; and cutthroat plate, \$2.50 and \$1.25 to Parks and Recreation for non-motorized boating access and remainder to non-game programs. Sample license plates may be purchased from the Idaho Transportation Department for a one-time fee of \$30 of which \$20 is deposited for non-game programs.

Endowment Fund Investment Board

Funds Common to More than One Program

Endowment Administrative (0482-70)

Sources: Earnings from the investment of the permanent endowments, earnings from the investment of the endowment earnings reserves, earnings from timber sales, earnings from range and cottage site leases, and earnings on interest from timber sales are placed into the earnings reserve.

Uses: The endowment administrative funds are a subset of the earning reserve funds and are used to pay for the administrative costs of managing the public school endowment and pooled investment portions of the Board's portfolio. The endowments constitute approximately 74% of the Board's investments. Amendments to the Idaho State Constitution (HJR 8 of 1998) approved by popular vote and legislation (HB 643 of 1998) effective July 1, 2000 allowed the legislature to appropriate administrative costs of the permanent endowments from the endowment earnings (public school §33-902A, penitentiary §20-102A, university §33-2909A, scientific school §33-2911A, agricultural college §33-2913A, normal school §33-3301A, mental hospital §66-1101A, and charitable institutions §66-1104). The legislature provides a fixed appropriation to the Endowment Fund Investment Board for the salaries and operating costs of the staff and the legislature provides a continuous appropriation for external investment costs. Separate statutory changes to the Capitol Endowment §67-1610 and §67-1611 (previously public buildings §76-5780) did not specify administrative uses by the Endowment Fund Investment Board.

Hispanic Cultural Center Trust (0498-00)

200 ADAN

Sources: In October 1999, the state of Jalisco, Idaho's sister state in Mexico, donated \$50,000 for the construction of a Hispanic Cultural Center. Governor Kempthorne pledged to match the donation with state funds. To that end, the fiscal year 2001 appropriation for the Department of Commerce (H 787) authorized the State Controller to transfer \$50,000 in General Funds to the Hispanic Cultural Center Fund. Pursuant to section 3 of H 787, expenditure of these moneys was made contingent upon the Hispanic Cultural Center receiving \$2.9 million in non-state sources and specific authorization from the Joint Finance-Appropriations Committee.

In February 2003, Mr. Rogelio Valdez, a member Hispanic Cultural Center of Idaho's Board of Directors, informed the JFAC co-chairs and the Department of Administration (the custodian of the Hispanic Cultural Center Fund) that the \$2.9 million in non-state sources had been received.

In a letter dated February 24, 2003, the JFAC co-chairs directed the Controller to release the \$100,000 and any interest accrued therewith.

Uses: Construction of Hispanic Cultural Center in Nampa.

State Insurance Fund

Funds Common to More than One Program

Petroleum Clean Water Trust (0130-00)

Sources: The Idaho Petroleum Clean Water Trust Fund (Petroleum Fund) was established in 1990 (§41-4909, Idaho Code). The Petroleum Fund insures owners and operators of eligible petroleum storage tanks in the State for the cost of cleaning up releases of petroleum products and any resulting bodily injury or property damage suffered by third parties. By law, The Idaho State Insurance Fund administers all activities of the Petroleum Fund with the manager of the SIF as the trustee. The Petroleum Fund is administered without liability on the part of the SIF or the state of Idaho beyond the amount of the Petroleum Fund (41-4904(7), Idaho Code). Full provision for program administration, claim payment, reserves, and statutory requirements are determined actuarially based upon insurance industry and statutory requirements. The Petroleum Fund's underwriting practices and procedures are guided by Idaho Code §41-4911 and §41-4911A, which outlines the criteria necessary for storage tanks to be eligible for insurance.

The primary source of funding for the Petroleum Fund is a transfer fee that is assessed at the rate of \$.01 per gallon on the delivery or storage of petroleum products within the state of Idaho. The fee is collected by the Idaho State Tax Commission. Pursuant to an Idaho Supreme Court ruling, the distribution was changed subsequent to April 1, 1997. The Petroleum Fund is now apportioned 20% of the total transfer fees collected, which is remitted directly to the State Treasurer, custodian of the Petroleum Fund funds. The balance of the transfer fees is apportioned 3% to the Department of Parks and Recreation and 77% to the State Highway Trust Fund.

Section 41-4908(10), Idaho Code, provides that the fee shall be initiated or suspended based on the balance of the Fund's unencumbered surplus. The first suspension commenced on October 1, 1999, in accordance with Idaho Code after the balance of the unencumbered surplus account had reached \$30,000,000. At that time the law provided that the assessment would be suspended when the surplus account equaled \$30,000,000 and would be reinstated when the surplus account declined to \$20,000,000. Effective July 1, 2000, with the enactment of Idaho Senate Bill 1584, the trigger point for the re-initiation was adjusted from \$20,000,000 to \$15,000,000 and the suspension trigger was adjusted from \$30,000,000 to \$25,000,000.

In addition to the transfer fee, owners or operators of underground or above ground storage tanks may apply for insurance by paying into the Petroleum Fund an annual application fee of \$25 for each regulated, farm, or residential petroleum tank and \$5 for each commercial and residential heating oil tank for which coverage is applied.

Uses: The Petroleum Fund operates in many respects similar to a non-profit corporate entity (§41-4904(4), Idaho Code). The moneys in the IPCTWF are to be used only to insure governmental and private entities who are owners and operators of petroleum storage tanks from the costs of corrective action and compensation of third parties who have suffered damages arising from an accidental release of petroleum from tanks insured by the Petroleum Fund (§41-4904(1), Idaho Code).

State Insurance (0424-00)

Sources: The State Insurance Fund (SIF) was created in 1917 to provide Idaho employers with a reliable source of worker's compensation insurance to facilitate compliance with Idaho Workers' Compensation laws. Public employers in Idaho must insure through the Insurance Fund unless the employer chooses to be self-insured. Private employers may self-insure or purchase insurance from private insurers or the Insurance Fund.

The SIF is an independent body corporate politic which the Idaho Supreme Court has ruled to be an agency of the State serving a public purpose and carrying on and effecting a proprietary function (§72-910, Idaho Code; State v. Musgrave, 84 Idaho 77, 370 P. 2d 778 (1962)). The SIF is subject to the same provisions of the Idaho insurance code, Title 41, Idaho Code, as are the other workers' compensation carriers in the state, except the SIF is not a member of the Idaho insurance guaranty association (§72-902(4), Idaho Code). The SIF has no regulatory authority. The regulatory authority regarding workers compensation rests with the Industrial Commission of the State. The SIF is funded only through premiums from the sale of workers' compensation insurance and earnings from the investment of its assets. The SIF is administered without liability on the part of the State. Full provision for program administration, claim payment, reserves, and statutory requirements are determined actuarially based upon insurance industry and statutory requirements.

Uses: The assets of the SIF are not State assets and are not held in the State treasury within the meaning of Article 7, Section 13 of the State Constitution. SIF monies are deposited with the State Treasurer as custodian and held by the Treasurer as such in trust for the contributing employers and the beneficiaries of the workers' compensation law and for the payment of Fund operating costs (§72-910, Idaho Code; State v. Musgrave, 84 Idaho 77, 370 P.2d 778 (1962)). At the discretion of the SIF manager, and after full provision for benefits payments, reserves, policyholder surplus requirements and expenses have been met, excess surplus of the SIF may be returned to policyholders in the form of a dividend.

Public Employee Retirement System

Funds Common to More than One Program

PERSI Special (0550-02)

Sources: Public employees and employers make contributions to PERSI. In order to maximize the return on investment of these contributions, only a minimum amount of money is kept on deposit at the State Treasurer's Office. Money is wired in from PERSI's master custodian bank only when funds are needed to pay administrative expenses, benefits, or other authorized expenses.

Although Idaho Code §59-1311 specifies that all moneys are perpetually appropriated, pursuant to Idaho Code §67-3514 the Joint Finance-Appropriations Committee appropriates certain administrative expenses and portfolio related administrative expenses. All other costs are perpetually appropriated as directed by the PERSI Board.

Uses: Portfolio staff salaries, related travel expenses, and operating expenses are paid through this fund.

Separation benefits, death benefits, and retiree payroll benefits (other than direct deposit) are also paid through Fund 0550-02 in the form of a state warrant. Direct deposit retiree benefits are paid through a local bank with funds wired in from the master custodian bank.

Expenses that qualify as portfolio expenses include but are not limited to: reporting services, investment advisory services, funding agent fees, money management fees, and investment staff expenses, including hiring of investment management personnel (Idaho Code §59-1311). *Source and use information is found under Common Funds at the beginning of this section.

Sources: This fund is commonly referred to as the Sick Leave Insurance Reserve Fund. Each employer in state government and employing school district contributes to a Sick Leave Fund maintained by PERSI exclusively for the purpose of the provisions of Idaho Code §67-5339 and §33-1228 for state employees and school district employees respectively. The rate of contributions will consist of a percentage of employees' salaries as determined by the PERSI Board, and such rate will remain in effect until next determined by the Board. Currently, the state employer must report to PERSI the employee's hourly rate of pay at retirement times half of the employee's sick leave balance up to 600 hours. School districts must report the employee's hourly rate of pay at retirement times half of the employee's sick leave balance without limit. Any excess balance in the Sick Leave Fund will be invested, and the earnings will accrue to the Sick Leave Fund except the amount required by the Board to defray administrative expenses. All moneys payable to the Sick Leave Fund are perpetually appropriated to the Board, and will not be included in its departmental budget.

A voluntary unused sick leave pool was established July 1, 2000 (Idaho Code §59-1365) for PERSI employer units not eligible to participate in those established by Idaho Code §67-5339 and §33-1228.

Uses: Upon separation from state, school district, or junior college employment, by an eligible PERSI member, the unused portion of the employee's accumulated sick leave, earned subsequent to July 1, 1976, will be subject to calculation to determine the monetary value. Such sums will be used by the PERSI Board to continue to pay premiums for the employee's group health and accidental life insurance programs as may be maintained by the employer for retirees, to the extent of the funds credited to the employee's account. Upon an employee's death, any unexpended sums remaining in the fund will revert to the Sick Leave Fund.

67-3510. EXPENDITURE OBJECT CODES MADE TO CONFORM. — All object codes used in appropriations shall be made to conform to those set forth in section-3508, Idaho Code. All expenditures made from said appropriations shall be classified in conformity with the standard object codes. The state controller shall use the standard object codes in the classification of all expenditures drawn against any and all appropriations made by the Idaho legislature.

67-3511. TRANSFER OF LEGISLATIVE APPROPRIATIONS. — (1) No appropriations made by the Idaho legislature may be transferred from one object code to another except with the consent of the state board of examiners upon application duly made by the head of any department, office or institution of the state (including the elected officers in the executive department and the state board of education). No appropriation made for expenses other than personnel costs shall be expended for personnel costs of the particular department, office or institution for which it is appropriated.

(2) Legislative appropriations may be transferred from one program to another within an agency upon application duly made by the head of any department, office or institution of the state and approval of the application by the administrator of the division of financial management and the board of examiners provided the requested transfer is not more than ten per cent (10%) cumulative change from the appropriated amount for any program affected by the transfer. Requests for transfers above ten per cent (10%) cumulative change must, in addition to the above, be approved by legislative appropriation. Legislative appropriations shall not be transferred from one fund to another fund unless expressly approved by the legislature.

(3) All moneys appropriated to any agency of the state of Idaho for the purpose of capital outlay shall be used for that purpose and not for any other purpose.

67-3512. REDUCTION OF LEGISLATIVE APPROPRIATIONS. — Any legislative appropriation made for any department, office or institution of the state may be reduced in amount by the state board of examiners upon investigation and report of the administrator of the division of financial management; provided, that before such reduction is ordered the head of such department, office or institution shall be allowed a hearing before said state board of examiners and may at such hearing present such evidence as he may see fit. No reduction of legislative appropriations made to executive department agencies shall be made without hearing unless and until the head of such department, office or institution shall file his consent in writing thereto. No reduction of legislative appropriations for the elected officers in the executive department shall be made to a level which prohibits the discharge of constitutional duties. No reduction of legislative appropriations for the legislative and judicial departments shall be made without the permission in writing of the head of such department.

67-3512A. TEMPORARY REDUCTION OF SPENDING AUTHORITY. — Whenever the governor as chief budget officer of the state may determine that the expenditures authorized by the legislature for the current fiscal year shall exceed anticipated moneys available to meet those expenditures, the governor by executive order may reduce the spending authority on file in the office of the state controller for any department, office or institution of the state; provided, that no reduction of spending authority for the elected officers in the executive department shall be made to a level which prohibits the discharge of constitutional duties and provided that no reduction of spending authority for the legislative and judicial departments shall be made without the permission in writing of the head of such department. The head of any executive department, office or institution of the state may appeal the temporary reduction of spending authority to the state board of examiners, and the state board of examiners may, after hearing and consideration of evidence, restore said spending authority to its original level or to such

lesser level as may be required to assist the state in maintaining a balanced budget. The governor may not temporarily reduce spending authority to a level lower than that required to insure that state expenditures do not exceed revenues. A temporary reduction of spending authority pursuant to this section shall not result in a reduction of appropriation. The governor at any time by executive order may restore spending authority which has been temporarily reduced to its original level.

67-3513. COMMITTEES OF LEGISLATURE TO CONSIDER BUDGET. — (1) The standing committees of the house of representatives and of the senate in charge of appropriation measures shall sit jointly in open sessions while considering the budget. Such committee may resolve itself into executive session upon the vote of two-thirds (2/3) of the membership of the committee, at which time persons who are not members of the legislature may be excluded; provided, however, that during such executive session, no votes or any official action may be taken. The administrator of the division of financial management or his designated representative shall attend all meetings of the joint committee and shall present to the committee the recommendations of the governor for amounts to be appropriated for each department, office and institution, including the elective officers and the state board of education, such presentation to include all information necessary to substantiate the recommendations of the governor. The joint committee at its discretion may cause the attendance of heads or responsible representatives of said departments, offices and institutions. The joint committee may increase or decrease items in the budget as it may deem to be in the interests of greater economy and efficiency in the public service.

(2) By not later than January 15 of each year, the administrator of the division of financial management shall report to the joint committee the following minimal information:

- (a) A list by department, by program, and by funding source of all permanent positions authorized as of January 1 of that year and the current salary established for each position as of January 1 of that year; the list shall also designate which of the listed positions were vacant as of January 1, and the date such position became vacant.
- (b) A list by department, by program, and by funding source of the amounts needed to fund the state employee compensation changes being recommended by the governor, which list must be prepared to show the individual cost of each component of the compensation changes.

67-3514. APPROPRIATION BILLS TO BE PREPARED BY JOINT FINANCE-APPROPRIATIONS COMMITTEE. — The joint committees of the legislature in charge of appropriation measures, after considering the budget requests required by section 67-3502, Idaho Code, and the executive budget as required by section 67-3506, Idaho Code, shall prepare and introduce appropriation bills covering the requirements of the various departments, offices and institutions of the state. In the case of any department, office or institution operating under a continuous appropriation, the joint committee may prepare and introduce appropriation bills covering the requirements for the administrative functions of such department, office or institution. The joint committee may, after examining the budget of any department, office or institution operating in part or in whole under a continuing appropriation or fund authorized by the

legislature, prepare and introduce appropriation bills covering all the requirements of the respective department, office and institution.

67-3516. APPROPRIATION ACTS DEEMED FIXED BUDGETS — RATE OF EXPENDITURE. — (1) Appropriation acts when passed by the legislature of the state of Idaho, and spending authority made thereunder, whether the appropriation is fixed or continuing, are fixed budgets beyond which state officers, departments, bureaus and institutions may not expend.

(2) Funds available to any agency from sources other than state funds, if not cognizable at the time when appropriations were made whether state fiscal liability is increased or not, must have prior approval of the administrator of the division of financial management and the board of examiners in order that funds may be expended, except those funds received under such conditions that preclude approval by the administrator of the division and/or the board of examiners. Receipts from the sale of capital outlay items and insurance claim settlements may, with the approval of the division of financial management, be included as an increase to an agency's appropriation and must be identified at an object code level. Expenditure of such receipts must be for capital outlay items.

(3) One state agency may bill another state agency for goods and services, provided the billing agency receives prior approval in writing from the billed agency or such billing is provided for by law. This process will be known as interagency billing to which the following rules will apply:

(a) The state controller will treat interagency receipts as revenue and not classify such revenue as a reduction of the expenditures of the receiving agency. Interagency billing credits for all funds shall be deposited to the appropriate fund of that agency.

(b) Interagency receipts may be expended by the collecting agency to the extent that authority to do so has been requested and approved by the legislature through an appropriation.

(c) The agency which is billed for the goods and services shall classify, treat and account for such expenses in the same manner as if such expenses had been paid by warrant, and may encumber unexpended balances to liquidate known or anticipated interagency billing expenses at the end of a fiscal year. The state controller shall provide for the method of liquidation of these encumbrances.

(4) State agencies selling goods, products, and services to another state agency must use the interagency process detailed by subsection (3) above. State agencies, departments and institutions may sell goods, products, and services to the public and/or other political entities. These cash receipts may be expended according to the following rules:

(a) The state controller will classify these moneys as receipts.

(b) Receipts for all funds shall be deposited to the appropriate fund of that agency.

(c) The collecting agency may expend all such receipts only to the extent that authority to do so has been requested and approved by the legislature through an appropriation, except receipts received by agencies under the circumstances cited in subsection (2) of this section.

67-3517. REQUESTS FOR SPENDING AUTHORITY BY OFFICIALS, DEPARTMENTS, BUREAUS AND INSTITUTIONS. — In order to guard against

excessive expenditure of appropriations, and as an act of economy, efficiency and control relating to said appropriations, it is hereby made the duty of each officer, department, bureau and institution, except the legislative and judicial departments, to file with the administrator of the division of financial management, who shall forward to the state controller, a request for spending authority of funds to be made available during the fiscal year, from the legislative appropriation to said officer, department, bureau or institution. Requests for spending authority shall be submitted to the administrator of the division at a time as prescribed by the administrator of the division, and as a general rule, in the same detail as appropriated, unless greater detail is deemed necessary by the administrator of the division. The legislative and judicial departments shall file a request for spending authority of funds with the state controller not later than fifteen (15) days prior to the expiration of the current spending authority, in such detail as the submitting agency desires. It shall be the duty of the state controller to provide a monthly report in the same or greater detail as the request for spending authority, which includes any adjustments made during the course of the fiscal year, expenditures for the month and expenditures to date for the year, and the percent of unexpended balance in the adjusted spending authority, and the percent of unexpended balance in the adjusted appropriation, if any.

67-3518. INVESTIGATION OF REQUESTS BY ADMINISTRATOR. — It is the duty of the administrator of the division of financial management to investigate such requests, to act upon said requests, make the necessary additions or reductions based upon necessary requirements within the amount appropriated, and deliver the same, to the state controller not later than fifteen (15) days prior to the expiration of the current spending authority.

67-3519. EMPLOYEE POSITIONS — PROCEDURE FOR FILLING. — (1) In addition to any powers, duties, functions and responsibilities of the division of financial management expressed elsewhere in this code, the division shall establish a list of employee positions for which funds are available from the spending authority of appropriated funds to each appointing authority. A position is defined as a specific job normally held by one (1) employee. This list shall contain the title of each position and the pay grade of the position. No appointing authority, except those in the legislative and judicial departments, shall fill a new position without first obtaining the approval of the division and then obtaining proper classification from the personnel commission for positions in the classified service. No appointing authority, except those in the legislative and judicial departments, may increase the pay grade of a position by reclassification or any other means without the approval of the personnel commission for pay grade level and without the approval of the division for sufficiency of spending authority of the appointing authority to meet the proposed change. Appointing authorities in preparation of budget requests shall include exact position control numbers in justification of salaries and other compensation and must assign position control numbers to proposed new positions prior to budget submission. A list of additions, deletions and changes during the first six (6) months of the current fiscal year and projections for the second six (6) months of the current fiscal year of the positions so controlled shall be furnished by the department to the legislature and to the governor on January 1. Any authority

vested in any appointing authority or agency, commission, department, board, office or institution is limited by the provisions of this section.

(2) Positions which have been authorized by the division of financial management, but which have not been filled by the appointing authority within twelve (12) months of such authorization, shall be declared null and void, and shall not be filled except upon a new authorization by the division of financial management.

67-3521. ENCUMBERING APPROPRIATIONS OR EXCESSIVE EXPENDITURES FORBIDDEN — ENCUMBRANCES TO REVERT — APPROVAL. — (1) No officer, department, bureau or institution, shall encumber any appropriations or be allowed to make any expenditures from appropriations in excess of the spending authority provided by this act.

(2) Encumbrances shall be reported as reductions against appropriations in anticipation of an object coded expenditure, shall be made only for a legally contracted obligation or for the accrued cost of a specific product or service due and payable prior to or as of the end of the current fiscal year or for the term of the contract obligation, and shall not be used as a means of reserving a portion of the appropriation of one (1) fiscal year to be used in combination with the appropriation of the following year. Requests for encumbrances shall be accompanied by proper identification of the accrued cost which must be adequately covered by appropriated funds from the current fiscal year.

(3) Encumbrances not liquidated by payment of the accrued cost during the succeeding fiscal year shall revert to the fund from which encumbered, unless approved for extension by the administrator of the division of financial management.

(4) Requests for encumbrances must have the approval of the administrator of the division of financial management.

(5) Notwithstanding any of the above, all purchase orders issued by the state purchasing agent, or purchase orders issued pursuant to a delegation of purchasing authority to specified state officers and employees, shall be encumbered, and such encumbrance shall not require the approval of the administrator of the division of financial management.

(6) When purchase requisitions are submitted by agencies prior to the state purchasing agent's fiscal year-end cutoff date, but not processed either due to workload or bid requirements, agencies may submit a request for encumbrance to the administrator of the division of financial management.

(7) The provisions of this section shall not apply to encumbrances involving vocational educational reimbursements to educational institutions or to encumbrances involving contracts for the construction of highways, bridges, buildings or other primary structures or capital improvements.

67-3524. EQUITABLE DISTRIBUTION OF GOVERNMENT OVERHEAD EXPENSE.

— (1) It is declared the public policy of this state that governmental overhead expenses should be equitably distributed among and between all of the boards, commissions, agencies, and other state and public entities utilizing the state controller's or state treasurer's services and functions to help defray the general fund expense of state government.

(2) Based on the advice of the state controller, the state treasurer, the administrator of the division of financial management, and a representative named by the joint finance-appropriations committee, the board of examiners shall determine governmental overhead rates composed of a financial transaction charge, and a separate personnel/payroll processing charge.

The rates shall be established annually by not later than August 15, to be applicable during the succeeding fiscal year. The financial transaction charge shall be a uniform charge applied to all financial transactions processed by the state controller through the accounting system.

The personnel/payroll processing charge shall be applied to all personnel/payroll transactions processed by the state controller.

(3) The charges imposed in this section shall be imposed and collected monthly by the state controller and utilized by the state controller for maintaining the state's accounting system and the state's personnel/payroll system.

67-3531. ANNUAL STATEWIDE INDIRECT COST ALLOCATION PLAN. — (1) The division of financial management shall develop an annual statewide indirect cost allocation plan in accordance with circular A-87 of the federal office of management and budget. The central service costs of the various central service agencies shall be allocated annually to the recipient state agencies, and such central service costs shall be included in an agency's indirect cost plans for the purpose of determining an indirect cost rate with the cognizant federal agency, and shall be included in an agency's federal grant application.

(2) In conjunction with the respective state service agency, the division of financial management shall prepare an estimate of costs for state budgeting purposes for services provided by the attorney general, the state treasurer and the state controller. The division of financial management shall notify all state agencies of these cost estimates for the next fiscal year on or before November 1. The division of financial management and the legislative services office shall allow state agencies to modify their budget requests in response to such estimates.

(3) The division of financial management shall assess each recipient agency up to one hundred percent (100%) of the amounts allocated in the statewide cost allocation plan. Amounts so assessed shall be separately accounted for and can be expended only after legislative appropriation.

TITLE 67
STATE GOVERNMENT AND STATE AFFAIRS
CHAPTER 19
STATE PLANNING AND COORDINATION

67-1901. PURPOSE. The purposes of sections 67-1901, 67-1902 and 67-1903, Idaho Code, and other applicable laws, are:

(1) To improve management practices and the confidence of our citizens in the capability of their state government in achieving program and operating results of the highest quality by developing and effectively utilizing long-term strategic planning

techniques, key performance standards or goals and measures and improved practices in publicly reporting their progress;

(2) To improve program effectiveness and accountability by promoting a new focus on results, service quality and customer satisfaction;

(3) To help program managers improve service delivery by requiring that they plan to meet program objectives and by providing them with information about program results and service quality; and

(4) To improve oversight review and decision making by providing objective information, data and statistics on achieving statutory and other public policy objectives, and on the relative effectiveness and efficiency of program implementation and spending.

67-1902. STRATEGIC PLANS. (1) By not later than September 1, 1995, the administrative head of each state agency shall submit to the division of financial management a comprehensive strategic plan for the programs, functions and activities of that agency using a methodology and format approved by the division of financial management. Each plan shall contain:

(a) A comprehensive mission and outcome based vision statement covering the major programs[,] functions and activities of the agency;

(b) General goals, including outcome based goals and objectives for the major programs, functions and activities of the agency;

(c) A description of how the goals and objectives are to be achieved, the key performance standards and measures that will be used to determine the efficiency, economy and effectiveness of the programs, functions and activities, and a schedule of implementation;

(d) A description of how the performance standards and measures identified as required by section 67-1903, Idaho Code, shall be related to the general goals and objectives in the strategic plan;

(e) An identification of those key factors external to the agency and beyond its control that could significantly affect the achievement of the general goals and objectives; and

(f) A description of the program evaluations used in establishing or revising general goals and objectives, with a schedule for future program evaluations.

(2) The strategic plan shall cover a period of not less than four (4) years forward including the fiscal year in which it is submitted, and shall be updated at least annually integrated into the management decision of the agency and reported in a manner that readily allows comparison of the results of the agencies activities and operations to its strategic plan.

(3) The annual performance plan required by section 67-1903, Idaho Code, shall be consistent with the agency's strategic plan.

(4) When developing a strategic plan, an agency shall consult with the appropriate members of the legislature, and shall solicit and consider the views and suggestions of those persons and entities potentially affected by the plan.

(5) For the purposes of sections 67-1901, 67-1902 and 67-1903, Idaho Code, and other applicable laws, the term "agency" means each department, board, commission,

office and institution, educational or otherwise, except elective offices, in the executive department of state government, as such are defined in section 67-3503, Idaho Code.

(6) Strategic plans are public records and are available to the public as provided in section 9-338, Idaho Code.

67-1903. ANNUAL PERFORMANCE PLANS AND ACCOUNTABILITY REPORTING.

(1) For the fiscal year commencing July 1, 1995, and for each fiscal year thereafter, each agency shall, as a part of its budget request, prepare an annual performance plan covering each program, function or activity along with the key performance standards and measures appropriate to adequately evaluate an agency's performance. Each agency shall:

- (a) Establish outcome based performance goals and objectives along with performance standards used to define and measure the level of performance or results to be achieved by a program, function or activity, and by not later than September 1 of each year, report such standards to the joint legislative oversight committee;
- (b) Express such goals in an objective, quantifiable and measurable form unless permitted an alternative form under subsection (2) of this section;
- (c) Establish relevant outcome and output measures of each program, function and activity;
- (d) Provide a basis for assessing actual program results by comparing relevant performance outcome and output measures to performance;
- (e) Describe the means to be used to verify and validate measured values; and
- (f) Review the success of achieving the previous fiscal year's performance standards or goals.

(2) Each agency shall include in its budget requests and in its annual reports to the legislature and to the public, an historical, comparative report of its performance and plans compared to its performance standards and measures. The report shall disclose the immediately prior four (4) historical fiscal years, and the next four (4) fiscal years of its strategic plan. The information reported in each of these years shall include performance based financial and statistical trends, ratios and percentages for each of their programs, activities and functions along with brief narratives evaluating their results and explaining the continued value and need of each program or activity in order of priority. Reports shall be presented in a uniform and consistent basis and in appropriate summary type format and language that can be easily reviewed and readily understood by the average citizen. To the extent records are not available in a format or classification that allows meaningful comparison for fiscal years prior to July 1, 1995, or if there are other compelling facts limiting an agency's compliance with the foregoing, waivers for up to the fiscal year commencing July 1, 1996, may be granted by the division of financial management. At a minimum, agencies shall be required to start implementation for the fiscal year commencing July 1, 1995, on a pilot basis using one (1) or more programs or activities.

(3) If an agency, after consultation with the administrator of the division of financial management, determines that it is not feasible to express the performance standard or goals for a particular program activity in an objective and quantifiable form, the administrator may authorize an alternative form. Such alternative form shall:

- (a) Include separate descriptive statements of:

- (i) A minimally effective program, and
 - (ii) A successful program,
- with sufficient precision and in such terms that will allow for an accurate, independent determination of whether the program activity's performance meets the criteria of either description; or
- (b) State why it is not feasible or impractical to express a performance goal in any form for the program activity.
- (4) In preparing a comprehensive and informative plan under this section, an agency may aggregate, disaggregate or consolidate program activities, provided that any aggregation or consolidation does not omit or minimize the significance of any program activity constituting a major function or operation of the agency.
- (5) For the purposes of this section:
- (a) "Outcome performance measure" refers to an assessment of the results of a program activity compared to its intended purpose or vision;
 - (b) "Output performance measure" refers to the tabulation, calculation or recording of activity or effort and can be expressed in a quantitative or qualitative manner, with emphasis on the impact on the person or services receiving the end result;
 - (c) "Performance standard or goal" means a target level of performance expressed as a tangible, measurable objective, against which actual achievement shall be compared, including a goal expressed as a quantitative standard, value or rate;
 - (d) "Performance indicator or measure" refers to a particular value or characteristic used to measure output or outcome;
 - (e) "Program" means a specific activity or project as listed in the annual budget of the state of Idaho or subcomponent thereof that is deemed by management or the legislature to be significant, highly controversial, materially different, important or having a high probability to become such;
 - (f) "Program evaluation" means an assessment, through quantifiable measurement and systematic analysis, of the manner and extent to which programs achieve intended objectives; and
 - (g) "Function" means a group of related activities serving a common end.
